REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The reason for allowance of the claims presented 3/20/2006 is the inclusion of the limitation to the mounting structure between the securement structure and the underlying article in combination with the limitation to the portions provide compressive force to the underlying article. While the brace 32 of Doshi could, for the first limitation, be read as the mounting structure, use of this structure in addition as the underlying article is thereby prohibited. Further, while use of a washer underlying the bed object of Doshi could also be read as a mounting structure, use of a washer between the bed of Doshi and the brace 32 is deemed to be non-obvious as no rational positive effect is produced thereby.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
